

Day 1

Water Lilly

I don't think Alan needs any introduction, internationally renowned sugarcraft teacher and author of nearly 30 years, it's taken us over a year to book him. He will be in the Region to host a workshop on the 17th & 18th March 2018,

The fee for BSG members is £175 for both days, however, don't despair if you can't make both days as we are offering one day for £90. Non members £100 per day.

Day 1 will be making a Water Lilly, Day 2, Water Hyacinth, Lemboglossum Orchid and purple berries which should, when combined, make a beautiful purple spray of flowers. (The Region's colour) Work in flower paste or porcelain, whichever is your preference.

The fee includes a light lunch and refreshments throughout the day.

There is free on site parking at the venue which has easy access and is all on one level.

A full list of requirements is available on request.

Places are limited so book early.
